

*** GBI Team Update ***

GEORGE A. DICESARE, *VICE PRESIDENT OF OPERATIONS*

GBI announces the appointment of George A. DiCesare, GBI Chief Engineer and Director of Operations, to the position of Vice President of Operations. Mr. DiCesare joined the GBI staff in 2000 as engineering and design team leader. Prior to directing operations at GBI, he worked as an engineering consultant for fifteen years on major civil engineering, construction and remediation projects for the U.S. Postal Service, Massachusetts Highway Department, Central Artery/Tunnel Project, Logan International Airport, Massachusetts Port Authority, Boston Water and Sewer Commission and several Massachusetts municipalities. Mr. DiCesare manages field operations for remediation and wastewater treatment, and directs the design and construction of field systems and laboratory study/ bench scale treatment systems for GBI's research and development of new biobutane technologies. His leadership in field operations has

been a key factor in GBI's successful innovative technology demonstrations for Sunoco, Inc. in Massachusetts and the U.S. Environmental Protection Agency (USEPA) and General Motors in Iowa.

JONATHAN M. NORIS
PROJECT MANAGER

Jonathan M. Noris was hired in December 2002 as Project Manager to lead site investigations and remediation projects conducted in support of GBI's Licensed Site Professional services. Mr Noris has expertise in overall management of client environmental liabilities under the Massachusetts Contingency Plan (MCP). He brings to GBI ten years experience in industrial wastewater treatment design, environmental engineering and consulting in hazardous materials management, risk assessment, and development of cleanup strategies that are economically feasible and keep the client in compliance with ever changing regulations. Mr. Noris will

be managing projects for GBI in Massachusetts, as well as nationally, with special focus on GBI's rapidly expanding project base in Florida under the guidance of the Florida Department of Environmental Protection (FLDEP).
